DETAILED ACTION

1. Claims 1-18 are cancelled. New claims 19-28 are withdrawn.

Restrictions

2. Applicant's remarks dated 8/7/07, in response to the claims rejected in the office action dated 5/10/2007, contains, the application has been reviewed in light of the Office Action dated May 10, 2007. Claims 1-18 were pending. By this amendment, claims 1-18 have been canceled, without prejudice or disclaimer, and new claims 19-28 have been added, claims 1-18 were rejected under the judicially created doctrine of obviousness-type double patenting as purportedly patentable over claims 1-43 of Nuggehalli U.S. Patent No. 7,143,150. By this Amendment, **claims 1-18 have been canceled**, without prejudice or disclaimer, and have been **replaced by new claims** 19-28. **Therefore, the rejection is moot** with respect to now-canceled claims 1-18. Newly submitted claims 19-28 are directed to an invention that is independent or distinct from the invention originally claimed for at least the following reasons: The remarks also contain, "New claims 19-28 clearly recite subject matter with the statutorily required definiteness and utility. For example, the subject matter of new claims 19-28 **enables consistent printer configuration data to be maintained in a system** in which a printer, a client apparatus and a server apparatus connected via a network. Such features allow the user to properly perform option setting when submitting a print job.

Since applicant has received an action on the merits for the originally presented invention (see previous office action rejected claims, **storing the configuration data obtained from the printer into the server**), this invention has been constructively elected by original presentation

for prosecution on the merits. Accordingly, new claims 19-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
